

# Syllabus Day (i.e. Welcome)

POSC 1020 – Introduction to International Relations

Steven V. Miller

Department of Political Science

## Goal for Today

Familiarize students with the topic of the course and the instructor's expectations.

## New to International Relations? Not Sure How Things Work?

Figure 1: You're Not Alone

I'll try to help.

# Structure of This Course

- Intro/framework/method
  - Actor's interests, interactions, and institutions
  - Preliminary game theory, understanding of stats.
- War as bargaining, and its causes
  - Included: civil war and terrorism
- International economics
  - i.e. learn these lessons as we get set to relearn history's mistakes in the West.
  - Included: trade, monetary relations, and inequality
- The problems of the future: international law, human rights, and global warming

We'll give careful attention to the issue of inference too.

# Structure of This Course

- Also: expect a lot of data and data visualization.
- I *love* playing with data and want you to better understand the world around you.
- Visualization with current (as possible) data may help your learning experience.

## The Percentage of States Involved in a MID and Inter-State War by Year, 1816-2010

We observe clear spikes in the 1860s, 1910s, and 1940s, which were particularly violent decades.

Data: GML MID data (v. 2.03) and Correlates of War State System Membership List.  
Note: Red shaded areas are for MID involvement. Blue shaded areas are the subset of wars.

## Protectionism is Still an Easy Sell, but We're Seeing a Partisan Shift on Limiting Imports to Protect Workers from Competition

"Some people have suggested placing new limits on foreign imports in order to protect American jobs. Others say that such limits would raise consumer prices and hurt American exports. Do you FAVOR or OPPOSE placing new limits on imports, or haven't you thought much about this?"

Data: American National Election Studies (2012, 2016)  
Note: Most respondents don't know enough to respond to this question so attitudes are certainly malleable.

## The Dollar Has Always Been Strong to the Mexican Peso

Mexico dropped its previous peg (i.e. three new pesos to one USD) in 1995, which you can see in the first few years of the data.

## Estimated Carbon Dioxide Emissions Through the History of the Planet, 800,000 BC to 2017

What's happening right now is more than just a normal "cycle."

Data: cobbled from various sources, including EPA, IAC/Eidgenössische Technische Hochschule estimates, and NOAA Earth System Research Laboratory

# Course Objectives

1. Gain a cursory knowledge of important topics in IR; prepare for upper-division courses with more focused applications in the field.
2. Understand conflict as bargaining process and explain why bargaining “breaks down” (i.e. war onset).
3. Learn that, despite popular commentary and outward appearances, terrorism is rational behavior and part of a bargaining process.
4. Appreciate the benefits of globalization and free trade, notwithstanding the externalities these policies can create.
5. Discuss current issues at the fore of international politics (e.g. human rights, global warming) and the problems we have trying to address these issues.

# Books

Frieden, Jeffry A, David A. Lake, and Kenneth A. Schultz (2016). *World Politics: Interests, Interactions, Institutions*. 3rd. New York, NY: W.W. Norton and Company.

## Grading Policy

<b>Assignment</b>	<b>(Due) Date</b>	<b>Percent of Grade</b>
Attendance/Participation		10%
Map Quiz	Jan. 30	10%
Midterm 1	Feb. 20	20%
Midterm 2	April 2	25%
Final	April 30, 8-10:30 a.m.	30%

Check syllabus for more information about the map quiz.

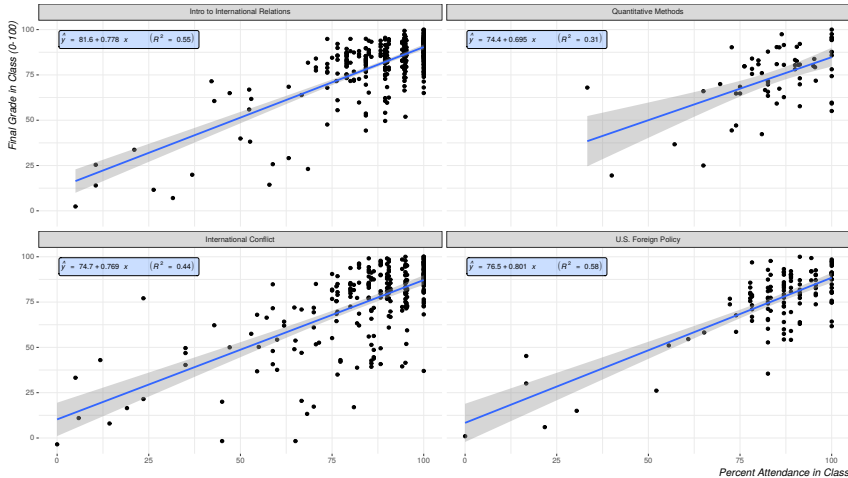

# Attendance/Participation Policy

Effectively mandatory: I deduct all participation points after five unexcused absences.

- Don't ask me how many you missed. You'll know more than me.
- Each class you miss coincides with an estimated 3.925 points in your overall grade.

Be prepared to answer questions. I might assign quizzes.

- Quizzes will be graded/weighted against your participation grade for the semester.

Data: My attendance records. Note: values are centered to the mean and coefficients communicate effect of a one percent increase in attendance. Multiply it by five to get a rough estimate of the effect of skipping/attending one class from the mean attendance rate.

January

S	M	T	W	T	F	S
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31	

February

S	M	T	W	T	F	S

19	20	21	22	23	24	25
26	27	28	29	30		

 Class Day
  Exam/Quiz

Notable dates: Professor out of town (March 12), Spring Break (March 16-20)

## Cell Phones, Laptops, etc...

Unless SDS says its mandatory, put your laptops/phones away during class.

- They are terrible learning devices. Take notes by hand instead.
- You're on Facebook or playing Pokemon Go anyway. Don't pretend you're not.

# Email Policy

I'm usually quick to respond to student e-mails. However, I may not if:

1. You could answer your question by reading the syllabus.
2. You missed a class for which there was no exam.
3. You want to know what you missed for the class you skipped.
4. You're protesting a grade without specific objections.
  - Read the syllabus about protesting a grade.
5. You want to know how many classes you missed.
6. You're requesting an extension on an assignment.
7. You're protesting that a late assignment is not actually "late".
8. You're grade-grubbing.
9. You want an extra credit opportunity.

# Make-up Exams

**No, and don't bother asking.**

- Sniffles/headaches don't count. Soldier through it.
- University-sponsored events/holidays count, but give me two weeks advance.

Students with valid excuses have one week *at the most* to make up an exam.

# Disabilities Policy

I'm more than happy to accommodate, but:

- The student has to take the initiative. I can't.
- Do let me know privately after class if I should expect to hear from SDS soon.

If you require the Test Proctoring Center, *schedule your midterm and final now.*

- I will not spend my free time watching you take an exam.

# My Contact Information

- *Name:* Steve Miller (as in the band)
- *E-mail:* [svmille@clemson.edu](mailto:svmille@clemson.edu)
- *Office Hours:* TR: 1:00 p.m.-2:00 p.m.
- *Office:* 230A Brackett Hall
- *Website:* [posc1020.svmiller.com](http://posc1020.svmiller.com)

## Additional Course Materials

I don't like Canvas. I only intend to use it for:

- Turnitin (and grading the Turnitin assignments)
- Classwide e-mails

I do like making lectures publicly available, though.

- Check course website at [posc1020.svmiller.com](http://posc1020.svmiller.com)
- Check my Github repository (just in case): [github.com/svmiller/posc1020](https://github.com/svmiller/posc1020)

*I encourage the student to take initiative to keep track of their grade through the semester.*

# My Expectations

I come off as a bit cruel in my expectations.

- I expect a lot, and I expect a commitment from you.
- Otherwise, why bother? Your job is to become “pro-ready.”

I also expect it to be a bit difficult for you.

- My philosophy: if you 100% understand something the first time you read it, you didn't learn anything.
- Read and re-read if necessary.
- Lectures should help, but they're not sufficient. You need to read.

I take seriously the “science” of political science.

- This may not be intuitive, but I'm also eager to help in-class or office hours.

# Etiquette Concerns

In-class:

- Raise your hand and ask a question the *moment* something doesn't make sense.
  - I do have a bad habit of talking a bit fast.
- *Do the reading before class.* Seriously.
- Resist the urge to write down every word on a slide.
  - Listening is more important than reading in this context.

# Etiquette Concerns

Outside class:

- **Resist the urge** to e-mail me if you missed a class (for which there wasn't an exam).
  - Short answer: you missed what was on the syllabus.
- Please use conventional e-mail etiquette.
  - This is a good professional exercise for you.
- Knock first, even when the door is open.
- You may not use my office supplies.
- I am not a study session. Come prepared with something specific to ask or discuss.

# You Have Homework!

Basically, read these on my website:

- Taking Good Notes
- Fun with Attendance and Grades (i.e. Students Should Attend Class)
- The Educational Power of Discomfort
- Put Your Laptops Away, Kids (Vol. 2)

Links available on the course website.
